CO-MANAGEMENT PORTFOLIO

Michael H. Manning, M.D., F.A.C.S.

Certified by the American Board of Ophthalmology, Dr. Michael Manning is a recognized leader in the fields of cataract surgery, refractive surgery, and cosmetic eyelid surgery. In addition to his leadership of Gulfcoast Eye Care. Dr. Manning earned his MD at the University of South Florida College of Medicine. He completed his Internal Medicine Internship Year at that same institution, followed by his Ophthalmology Residency at the University of South Carolina School of Medicine.

In addition to giving presentations at many national and international Ophthalmology conferences, Dr. Manning has written or co-written numerous publications. His work has included a chapter in Albert & Jakobiec's Principles & Practice of Ophthalmology (3rd edition). The Journal of the American Medical Association has called that textbook "the current standard in comprehensive ophthalmology textbooks."

Jason M. Handza, D.O.

Dr. Jason Handza is a board-certified Ophthalmologist and fellowship-trained Vitreoretinal Surgeon offering a range of retinal treatments at Gulfcoast Eye Care. Dr. Handza earned his medical degree from the Philadelphia College of Osteopathic Medicine, graduating with honors. He later completed his fellowship in vitreoretinal surgery at the University of South Florida Eye Institute, training under some of the leading experts in retinal surgery and ophthalmology.

Prabin Mishra, M.D., PhD.

Board-certified in Anti-Aging Medicine, Dr. Prabin Mishra is an experienced ophthalmologist and fellowship-trained cosmetic surgeon offering a range of aesthetic enhancement procedures. Dr. Mishra completed his Ph.D. at Cornell University and earned his medical degree at the Michigan State University School of Medicine. He attained his Residency in Ophthalmology at the Indiana University School of Medicine, and completed a Fellowship in Cosmetic Surgery at the American Academy of Cosmetic Surgery-Aesthetic Rejuvenation Center of Beverly Hills, California.

BENEFITS OF PARTNERING WITH GULFCOAST EYE CARE

OUR PARTNERS ARE A PRIORITY – We are committed to building strong, lasting relationships for the benefit of our shared patients.

EXCEPTIONAL EXPERIENCE – Celebrating over 35 years of vision care excellence with thousands of refractive procedures performed.

EXCEPTIONAL RESULTS – Our team is continuously focused on patient outcomes and striving for the best possible results. We track and record data which is available for our partners at any time.

QUALITY PERSONAL PATIENT CARE – You can rest assured your patients receive the same personal touch and care with us that they have been accustomed to at your practice. We understand that who you refer your patients to is a reflection of your practice as well and we respect that relationship.

STATE-OF-THE-ART TECHNOLOGY – We are committed to offering the most advanced technology and procedures, whether chosen or not, we want our patients to have access to the options that can help meet their visual goals.

COMMUNICATION IS KEY – With a direct line exclusive for our Partners in Vision, dedicated staff members ready to help, and open door communication with our surgeons, Gulfcoast Eye Care is committed to a team approach for a successful patient experience.

LEADERS IN THE INDUSTRY – Gulfcoast Eye Care was one of the first practices in the area to introduce multifocal lens implants over 25 years ago, and was the first practice in Florida to offer LipiFlow® Dry Eye treatment.

HONEST AND INTEGRITY – Much of the success of vision correction surgery depends not just on the technology used and the skill of the surgeon, but also on the proper patient selection for each respective procedure. We are upfront anytime that we find a person's eyes are not well suited to a particular procedure, so that we can achieve the most desirable outcome possible.

PATIENT EDUCATION MATERIALS

Trust your patients' ophthalmic needs in the care of our medical professionals.

Patient Education is important to us. Available to you and all of your patients, are resources to assist them in making decisions regarding their care.

START REALIZING A LIFETIME OF SAVINGS WITH LASIK!

What's the cost of great vision? Depending on your prescription, your contacts & glasses can cost anywhere from \$300 - \$800 per year!

	PER YEAR	10 YEARS
Contacts	\$300 - \$400	\$3000 - \$4000
Glasses	\$300 - \$800+	\$3000 - \$8000+

PAYS FOR ITSELF IN 10 TO 10 YEARS! **\$2600* PER EYE**

Can't afford it? At Gulfcoast Eye Care, we believe that great vision should be affordable for every budget, and that's why we offer financing options.

Start your new life without glasses or contacts for as little as \$217 per month fixed payment for 60 months¹ or \$217 per month for 24 months with 0% interest.¹

Save up to 30%² by using tax-free dollars to pay for your LASIK through your employer to see if they offer an FSA benefit.

And contacts for as little as \$7.24 per day!³ of glasses and contacts, cleaners and solutions adds up to more than \$200 per year. LASIK now will be less expensive over time, than contacts.

Our comparison is based on a \$2000 LASIK procedure. Your personal cost will vary. Based on a LASIK procedure price of \$2000, \$2000 divided by 60 months equals \$33.33 per month. \$33.33 plus \$18.33 per month for 60 months equals \$2000. \$2000 divided by 24 months equals \$83.33 per month. \$83.33 plus \$133.33 per month for 24 months equals \$2000. ¹Actual FSA use dependent on employer plan. ²Depends on approved credit. ³Actual FSA use dependent on employer plan.
